

## 2015 Graduates Sharing

The "2015 Graduates Sharing" was held on 24 October 2015, where 62 graduates and 92 parents attended.

The graduates shared about their exciting primary school life with their teachers; we could tell how much they enjoy this new stage in life. Meanwhile the parents talked about how well their children have adjusted and what each primary school teaching approach was like. Most parents felt that the last K3 theme "Primary School Modelling" was very effective and helpful in preparing their children for the transition.

The graduates could not wait to run around and play in our newly renovated outdoor playground. This outdoor space is certainly a big hit for all kids!

Please visit us whenever you have time; our big family is very eager to continue to walk with you as your child grows.
